(Explanatory Statement pursuant to Section 173(2) of the Companies Act, 1956.)

SPECIAL BUSINESS:

Item No. 5

The members of the Company at their Extra - Ordinary General Meeting held on January 27, 2010 had approved the appointment of Mr. Deepak Chheda, as Managing Director of the Company w.e.f November 14, 2009, for a period of 3 (Three) years. The period of 3 (Three) years is expiring on November 13, 2012.

Mr. Deepak Chheda is responsible for day to day operations of the Company under the overall superintendence, direction and control of the Board. In recognition of his excellent performance and to enable the Company to continue to benefit from his stewardship, the Remuneration Committee has recommended his re-appointment as Managing Director of the Company with such emoluments and for such term as provided in the resolution.

The Remuneration Committee along with the Board of Directors of the Company at their meeting held on August 29, 2012 approved the re-appointment of Mr. Deepak Chheda as Managing Director of the Company for a further period of 3 (Three) years w.e.f. November 14, 2012 on a remuneration of Rs.2,50,000/- per month, is subject to the approval of the members of the Company.

The details as required under proviso(iii) to Clause B of Part II of Schedule XIII of the Act are given hereunder:

I. GENERAL INFORMATION:

- 1) **Nature of the industry:** The Company is in the Real Estate and Project Management Consultancy business.
- 2) **Expected date of commencement of commercial production:** The Company has started its Real Estate activities from January, 2010 onwards.
- 3) **In case of new companies, expected date of commencement of activities as per project approved by financial institutions appearing in the prospectus:** Not Applicable
- 4) **Financial performance –** (Based on the Audited Account for the year ended 31st March, 2012)

(Rs. In Lacs)

Turnover	2787.74

Review of Operations

During the Financial Year ended March 31, 2012, the total revenue of the Company amounted to Rs. 2,922.45 lacs as against the previous year's revenue of Rs. 2,548.21 lacs. Your Company has registered the profit before tax of Rs. 552.53 lacs as compared to Rs. 558.09 lacs during the previous year.

Business

The year was full of challenges for the real estate sector and your Company was also impacted by the adverse market conditions. Mumbai's residential market was characterised by slowdown in sales, inventory pile up, cautious investor activity and hardening home loan interest rates. As a result, residential property registrations in the city – a key indicator to assess demand – recorded a considerable drop in sales. The slowdown was also attributed to changes in Development Control Regulations and other major policy changes. The real estate activity in Mumbai has remained stagnant for a substantial part of the year. Your Company's on-going

residential project at Juhu, Mumbai was held up during the year due to delay in permissions from the regulatory authorities for carrying on further development. Your Company is also awaiting clearances from the regulators for commencing construction work at its other two planned projects in Matunga (Central Mumbai) and in Kandivali (Mumbai), for which the underlying land agreement/development agreement are already in place. The Company is also poised for sale of its ready inventory in its completed commercial project "Xtrium" in Andheri, Mumbai. While your Company presently has presence predominantly in the city of Mumbai, it is actively looking for opportunities to expand its operations in other towns and cities also.

Dividend

With a view to conserve resources for the Company's growth, your Directors do not recommend any dividend on its equity capital for the year ended March 31, 2012. The Directors recommend payment of dividend aggregating to Rs. 126 lakhs on the Cumulative Redeemable Preference Shares at the fixed rate (9%) each for the years ended March 31, 2011 and for the year ended March 31, 2012. This dividend, together with the dividend distribution tax and education cess thereon will involve an outgo of Rs. 146.44 lakhs and has been provided for appropriation out of the profits of the Company for the year as permitted under Section 205 of the Companies Act, 1956.

Rights Issue

Your Company had filed a fresh draft Letter of Offer with SEBI for its proposed Rights Issue of equity shares in the month of August, 2011. The Company has received final clearance from SEBI for the Rights Issue of equity shares in February, 2012. Your Directors will fix the rights issue size, price, record date, etc. for the Rights Issue at the appropriate time considering the market conditions.

Management Discussion and Analysis Report

The Management Discussion and Analysis Report for the year under review, as stipulated under Clause 49 of the Listing Agreement, is presented in a separate section forming part of the Directors' Report.

MANAGEMENT DISCUSSION AND ANALYSIS

Overview

The financial statements have been prepared in compliance with the requirements of the Companies Act, 1956, guidelines issued by Securities and Exchange Board of India (SEBI) and the Generally Accepted Accounting Principles (GAAP) in India. Our management accepts responsibility for the integrity and objectivity of these financial statements, as well as for various estimates and judgments used therein. The estimates and judgments relating to the financial statements have been made on a prudent and reasonable basis, so that the financial statements reflect in a true and fair manner the form and substance of transactions, and reasonably present our state of affairs, profits and cash flows for the year.

ECONOMIC OUTLOOK

The year under review was a challenging year for the Indian economy. After two successive years of fairly robust growth of 8.4 percent, the economy witnessed sharp fall in the GDP growth rate. India registered a modest GDP of 6.9 percent during 2011-12, as compared to an impressive 8.4 percent in the previous fiscal. India witnessed varied challenges during the fiscal year 2011-12 both externally as well as internally. On the external front there were pressures on account of Euro zone crisis, slow down in China and the US, whereas internally factors like high double digit inflation, rupee depreciation, higher interest rates, constant political inaction and deceleration in GDP growth prevailed. During the current fiscal year the Reserve Bank of India hiked repo rates more frequently to combat inflation. The Indian economy witnessed a constant double digit inflation rate and remained at a level close to 10 percent during the major part of the year. However, the Reserve Bank of India has reduced repo rates by 50 bps in April 2012, expecting growth and increased investments due to improvement in liquidity. In spite of these challenges, the Indian economy is showing good amount of resilience and the momentum of growth has remained intact.

REAL ESTATE SECTOR OVERVIEW

The Indian real estate industry has been on a roller coaster ride since 2007, riding through many highs and lows. The industry reached new heights with increased development activity during 2007 and early 2008, characterised by growth in demand and increased foreign investments. However, by mid-2008, this scenario took a U turn, as the industry witnessed a decline due to the ripple effect of the global economic slowdown. The Indian real estate industry showed some vibrancy and upbeat market sentiments after the steep corrections during the global financial crisis in 2008-09, however the real estate industry continued to remain subdued in 2011-12. Numerous interest rate hikes, lack of political reform, and the unfolding European debt crisis were among the significant macroeconomic headwinds faced by the sector. The sector witnessed slowing demand due to reduction in affordability, increase in asset prices and cumbersome government regulations leading to delays in project execution and new launches.

Recently, the Central bank announced surprise CRR cut of 1.25 percent which was followed by reduction of Repo rate by 0.5 percent. Thus, 2012-13 is expected to witness a falling interest rate regime and a moderate inflation scenario. This should lead to a considerable change in sentiment for the sector as a whole. The improvement in housing demand will be the major catalyst for the overall performance of the sector.

The residential segment makes up most of the real estate industry in the country. Growth in this segment is primarily driven by increasing urbanisation, rise in the number of white-collar professionals and rising incomes,

etc. The residential segment is again witnessing growth in demand for luxury and super premium homes among the globe-trotting executives, new and successful businessmen, non-resident Indians (NRIs), etc. However, this sub-segment is currently experiencing low volumes due to steep price rise and hike in interest rates; this may be a short-term lull and with minor corrections, the segment may continue to grow.

The commercial real estate segment (primarily office space) is growing in tandem with the country's booming economy. The demand for office space is driven by the influx of multinational companies and growth in services sector. Overall, on pan-India basis, the demand for office space is expected to total 180 million sqft by 2013, with seven major cities (Bangalore, Chennai, Hyderabad, Kolkata, Mumbai, the NCR and Pune) catering to 75 percent of the total demand.

REAL ESTATE OUTLOOK – MUMBAI

Residential Real Estate

It is expected that market will bottom out by the third quarter of 2012 and the sector will see the beginning of a recovery in the city's residential real estate fortunes by the second half of the year. Meanwhile, there is very little scope for appreciation in under-construction projects. In fact, unsold under-construction stock will increase significantly.

Currently, buyers are not expressing any interest in projects that are perceived to be overpriced, and this trend will continue throughout the first half of 2012. In this period, the city's residential market will be more or less sustained by the sale of affordably priced mid-income apartments. This absorption is likely to be driven by both end users and HNI investors. However, completed high-end projects will become costlier by mid-year, largely because of reduced supply in this segment. The new DCR regulations would further impact new launches in the first half.

The reduction of interest rates expected by the second half of the year will help kick-start a generalized – though cautious - recovery in demand for residential property, leading to an increase in launches.

Commercial Real Estate

Demand in 2012 is likely to be marginally lower than in 2011, with IT and ITES companies becoming even more cautious on account of the expected reduction in IT spend by US and European companies. The uncertain economic environment will continue, leading to reduced employment growth and therefore lower fresh commercial space absorption. Tighter lending standards for commercial construction will not help, either.

On the brighter side, these market conditions will continue to favour tenants in most of Mumbai's micro-markets by ways of a larger bouquet of options, rational pricing and various concessions. The market conditions are optimal for consolidation and relocation, and many Mumbai-based occupiers will avail of this option throughout 2012.

Office space is likely to show a further - though marginal - drop in the first half of the year as infusions of additional stock lead to higher vacancies. One direct result of this will be a sharp reduction in speculative commercial projects. The continued yield compression will cause a number of HNIs to become active buyers of rent-producing and vacant office spaces in the city.

OVERVIEW OF THE BUSINESS

The Company's business model or strategy is to undertake real estate development projects on property development basis and project management basis. Property Development includes activities starting from conceptualization stage to completion stage. Project Management includes understanding the needs of the customer, project planning and feasibility, project assessment studies, geological and soil investigation, architectural/ engineering/ interior designs, construction management, Build to Suit solutions, etc. The Company has a well trained and experienced in-house design and architectural team. They have the experience and expertise required to undertake large developments.

This year was a lackluster year with full of challenges for the real estate sector. The real estate activity in Mumbai has remained stagnant and at a standstill for the substantial part of the year, your Company's on-going residential project X'Czar at Juhu, Mumbai, offering premium residential apartments based on the concept of green building with a plot area of over 8,000 sq. ft, the project is a 12 storeyed domicile with one private apartment on each floor, was held up during the year due to delay in permissions from the regulatory authorities for carrying on further development. Your Company expects to receive the necessary permissions to progress with the construction shortly. Your Company is awaiting clearances from the regulator for starting the construction work at its other two planned projects, Matunga, Central Mumbai and in Kandivali, Mumbai for which the land agreement/ development agreement are already in place. The Company is waiting for the right opportunity to dispose off its ready inventory in its completed commercial project "X'trium" in Andheri, Mumbai. While your Company presently has presence predominantly in city of Mumbai, it is actively exploring opportunities to expand its operations in other towns and cities also.

In the present economic scenario, the Company has been able to hold its head high due to its pre-eminent strengths in quality construction, project execution capabilities, transparent and honest dealings, aggressive marketing strategy and above all a strong customer-centric approach.

While the entire real estate industry has been starved of adequate funding for their operations, the Company has continued to prudently manage its finance, focused on a low gearing ratio and controlled growth. The Company's operating cash flow continues to be positive.

Company's Competitive Strengths:

- Experience of the Promoters
- Strong in-house design and architectural capabilities
- Emphasis on quality construction
- Land identification at attractive pricing and strategic locations
- Good relationships with contractors and financiers
- Strong and stable management team with proven ability

Business Strategy:

- Maintain high standards of quality
- Increase Scale of Operations in a controlled manner
- Expand into new geographical areas besides Mumbai
- Continue focus on a diversified business model
- Flexible approach to project development
- Marketing strategy aimed to satisfying customer expectations

OPPORTUNITIES

1. Rising urbanization offering opportunities for real estate development

According to a United Nations report, India will have the highest growth in urban population among all BRIC nations, a rate many expect to remain above 2% per annum for the next three decades. India will add another 497 million to its urban population between 2010 and 2050. This rapid urbanization will offer large-scale opportunities for real estate development in Indian cities.

2. Young population presents possibilities of rich demographic dividend

India has growing young population as nearly 64% of the Indian population is between the age group of 15-64 years and 35% is in 15-34 years age group. Looking at the current scenario, the growth opportunities available with the country shall provide more disposable income leading to increase in consumption which will further drive the growth of manufacturing, retail, residential and commercial sector.

3. High savings rate coupled with increasing availability of credit with spur housing demand.

The Indian households are relatively deleveraged having household saving rates of 21 to 24% which is higher than in other nations. Nowadays more credit is available through the proliferation of credit cards and availability of easy loans.

4. Subsidizing Regulatory Changes

On account of various regulatory reforms, especially the recent reform i.e. Mumbai Development Corporation rules are reviving Investors confidence. The new DCR rules are intended to eliminate the ambiguity and discretion that was prevalent earlier with respect to the constructed and saleable area. After the announcement of the new DCR, the approval machinery in the BMC has commenced active consideration of the development proposal.

5. Increased Private Equity (PE) Funding

Real estate in India, over the last decade, has seen tremendous growth and transformation. A wider participation of Institutional Private Equity (PE) in the capital intensive business in addition to traditional debt finance has played a critical part in this change. The entry of PE participants has also brought in a more disciplined approach towards construction and delivery of projects along with better transparency to the market. With PE players' understanding of the Indian market now increasing, and limited global real estate investment opportunities, PE investments into Indian real estate are set to grow.

THREATS

1. Unfavorable changes in government policies and the regulatory environment

There are substantial procedural delays with regard to land acquisition, land use, project launches and construction approvals. Retrospective policy changes and regulatory bottlenecks (like introduction of VAT on developers retrospectively, levy of Service Tax on Real Estate transactions, etc.) may impact profitability and affect the attractiveness of the sector and companies operating within the sector.

2. Commercial oversupply and muted rental growth

The subdued economic scenario and continuing high vacancies have resulted in tenants being locked in at existing rents rather than being pushed for incremental rents. Slower growth in the economy, oversupply and slowdown in the BFSI sector reduces the need for office space expansion and will continue to impact commercial real estate.

3. Slowdown in residential sales

Residential sales have slowed across markets due to weak buyer sentiment. Sharp price appreciation over the last several years has impacted investor-led demand and depressed absorption volumes.

4. Liquidity concerns

Tighter lending norms, longer approval processes, and lower absorption have resulted in a liquidity crunch for the sector as a whole. Managing liquidity is an important challenge in 2012-13 given huge scheduled loan repayment for developers over the next 3-4 years. As operational support dries up, developers are trying to service debt through asset divestment. Cash flow management will continue to be a challenging task for developers with falling operating cash flows, rising interest costs and impending debt repayment schedules. The domestic construction industry has been impacted with a steep rise in prices of inputs including cement, steel, and bricks. With rise in the cost of production and stagnant price for sales, the profit margins have reduced across the sector.

CAUTIONARY STATEMENT

Some of the statements in this management discussion and analysis describing the Company's objectives, projections, estimates and expectations may be 'forward looking statements' within the meaning of applicable laws and regulations. Actual results might differ substantially or materially from those expressed or implied. Important developments that could affect the Company's operations include a down trend in industry, significant changes in political and economic environment in India and abroad, tax laws, import duties, litigation and labour relations.

TO THE MEMBERS OF RODIUM REALTY LIMITED

We have audited the attached Balance Sheet of Rodium Realty Limited as at 31st March 2012, and also the Statement of Profit and Loss and the cash flow statement for the year ended on that date annexed thereto which we have signed under reference to this report. These financial statements are the responsibility of the company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Companies Act, 1956 (the 'Act') we give in the annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.

Further to our comments referred to above, we report that:

1. We have obtained all the information and explanations, which to the best of our knowledge belief were necessary for the purpose of our audit;
2. In our opinion, proper books of account, as required by law, have been kept by the Company so far as appears from our examination of those books;
3. The Balance Sheet, Statement of Profit and Loss and Cash Flow statement dealt with by this report are in agreement with the books of account;
4. In our opinion, the Balance Sheet, Statement of Profit & Loss and Cash Flow statement dealt with by this report comply with the Accounting Standards referred to in sub-section (3C) of Section 211 of the Companies Act, 1956;
5. On the basis of written representations received from the Directors as on 31st March 2012 and taken on record by the Board of Directors and on the basis of examination and records of the company, we report and certify that none of the Directors is disqualified as on 31 March, 2011 from being appointed

as a Director in terms of clause (g) of sub-section (1) of Section 274 of the Companies Act, 1956 on the said date;

6. In our opinion and to the best of our information and according to the explanations given to us, the said Accounts read together with notes thereon, give the information required by the Companies Act, 1956, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India;
- a) in the case of the Balance Sheet, of the State of Affairs of the Company as at 31st March 2012;
 - b) in the case of the statement of Profit and Loss, of the Profit for the year ended on that date; and
 - c) in the case of the Cash Flow Statement, of the Cash Flows for the year ended on that date.

ANNEXURE TO THE AUDITORS' REPORT

(Referred to in our report of even date to the members of **RODIUM REALTY LIMITED** as at and for the year ended 31st March, 2012).

- i) In respect of its Fixed Assets:
 - a) The company has maintained proper records showing full particulars, including quantitative details and situation of Fixed Assets;
 - b) As explained to us, the assets have been physically verified by the management, which in our opinion is reasonable, considering the size and the nature of its business. The frequency of verification is reasonable and discrepancies noticed on such physical verification have been properly dealt with in the books of account;
 - c) The company has not disposed off any part of its Fixed Assets during the year.
- ii) In respect of its inventories:
 - a) The inventory has been physically verified by the management during the year. In our opinion, the frequency of verification is reasonable;
 - b) The procedures of physical verification of inventory followed by the management are, in our opinion, reasonable and adequate in relation to the size of the company and nature of its business;
 - c) The company is maintaining proper records of inventory. As informed, no material discrepancies were noticed on such physical verification.
- iii)
 - a) The company has not granted any loans, secured or unsecured to companies, firms or other parties covered in the register maintained under section 301 of the Companies Act, 1956. Accordingly the clauses 4(iii) (b) to (d) of the Order are not applicable;
 - b) The company has taken unsecured loans from 10 parties covered in the register maintained under section 301 of the Companies Act, 1956. The maximum amount involved during the year and the year end balance of loans taken from such parties were Rs. 208,749,547/- and Rs. 165,083,889/- respectively.
 - c) In our opinion and according to the information and explanations given to us, the rate of interest and other terms & conditions are not prima facie prejudicial to the interest of the company.
 - d) The principal and interest payments in respect of the said loans were regular.
- iv) In our opinion there are adequate internal control procedures commensurate with the size of the company and the nature of its business with regard to purchase of inventories, fixed assets and for the sale of goods and services. During the course of our audit, no major weakness has been noticed in internal

control system, in respect of these areas.

- v) a) Based on the audit procedure applied by us and according to the information, explanations and representation given to us, we are of the opinion that particulars of contracts or arrangements referred to in section 301 of the Companies Act, 1956 that need to be entered in the register maintained under that section have been so entered.
- b) According to the information and explanations given to us, the transactions made in pursuance of contracts or arrangements entered in the register maintained under section 301 of the Companies Act, 1956 exceeding the value of Rs.5 lakhs in respect of each party, the transactions have been made at prices which are, prima facie, reasonable having regard to the prevailing market prices at the relevant time, where comparable market price exists.
- vi) In our opinion and according to the information and explanations given to us, the company has not accepted any deposits from public within the meaning of section 58 A and 58 AA of the Companies Act, 1956 and Rules framed there under.
- vii) The Company has appointed a firm of Chartered Accountants to carry out the internal audit of its operations. In our opinion, the company's internal audit system is commensurate with the size and nature of its business.
- viii) We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for maintenance of cost records under section 209(1)(d) of the Act, and are of the opinion that prima facie the prescribed accounts and records have generally been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- ix) a) The company is generally regular in depositing undisputed statutory dues, including Provident Fund, Investor Education and Protection Fund, Employees' State Insurance, Income Tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Excise Duty, Cess and other statutory dues with appropriate authorities, where applicable. According to the information and explanations given to us, there are no undisputed amounts payable in respect of such statutory dues which have remained outstanding as at 31st March, 2012 for a period of more than six months from the date they became payable.
- b) According to the information and explanations given to us, there are no dues of Sales tax, Income tax, Custom duty, Wealth tax, Service Tax, Excise duty and Cess that have not been deposited on account of any dispute.
- x) The accumulated losses at the end of the financial year are less than fifty percent of the net worth of the Company. Further, the Company has not incurred cash losses in the current financial year and in the immediately preceding financial year.
- xi) The company has not defaulted in repayment of its dues to banks. The company does not have any borrowings from financial institutions or by way of debentures.
- xii) The company has not granted any loans or advances on the basis of security by way of pledge of shares, debentures or other securities.

- xiii) The provisions of any special statute applicable to Chit Fund, Nidhi or Mutual Benefit Fund / Societies are not applicable to the company.
- xiv) According to the information and explanations given to us, the company is not dealing or trading in shares, securities, debentures or other investments except for investments in mutual funds, where the company has maintained proper records, timely entries have been made and the investments are held in the name of the company.
- xv) According to the information and explanations given to us, the company has not given any guarantee for loans taken by others from banks and financial institutions.
- xvi) On the basis of the records examined by us we have to state that, the company has, prima facie, applied the Hire Purchase loans for the purposes for which they were obtained. The company does not have any other term loans.
- xvii) According to the information and explanations given to us and on an overall examination of the Balance Sheet of the company, we report that no funds raised on short term basis have been used for long-term investments.
- xviii) The company has not made any preferential allotment of shares during the year to parties and companies covered in the register maintained under section 301 of the companies Act, 1956.
- xix) The company has not issued any debentures during the year.
- xx) The company has not raised any money by way of public issue during the year.
- xxi) On the basis of our examination and according to the information and explanations given to us, no fraud on or by the company, has been noticed or reported during the year.

NOTE 1 : NATURE OF OPERATIONS

Rodium Realty Limited the "Company" or "RRL", is primarily engaged in business of real estate development and services.

NOTE 2 : SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Financial Statements are prepared in accordance with the generally accepted accounting principles in India under the historical cost convention, on an accrual basis, in accordance with applicable Accounting Standards and the relevant provisions of the Companies Act, 1956.

All assets and liabilities have been classified as current or non-current as per criteria set out in the Schedule VI to the Companies Act, 1956.

Use of Estimates

The presentation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of financial statements and reported amount of revenues and expenses during the reporting period. Differences between the actual results and estimates are recognised in the period in which the results are known / materialised.

Revenue Recognition

The Company is following the "Percentage Completion Method" of accounting. As per this method, revenue from sale of properties is recognised in Profit and Loss Account in proportion to the actual cost incurred as against the total estimated cost of projects under execution with the Company on transfer of significant risk and rewards to the buyer. If the actual project cost excluding cost of acquisition of land / development rights incurred is less than 20% of the total estimated project cost, no income is recognised in respect of that project in the relevant period.

The estimates relating to percentage of completion, costs to completion, area available for sale etc. being technical in nature are reviewed and revised periodically by the management and are considered as change in estimates and accordingly, the effect of such changes in estimates is recognised prospectively in the period in which such changes are determined.

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

Dividend income is recognised when the right to receive the same is established

Fixed Assets

Tangible Fixed Assets are stated at cost less accumulated depreciation and provision for impairment, if any. The cost includes expenditure incurred in the acquisition and construction / installation and other related expenses in bringing the asset to working condition for its intended use. In respect of qualifying assets, related pre-operational expenses including borrowing costs are also capitalised.

Intangible Assets are stated at acquisition cost, net off accumulated amortisation and provision for impairment, if any.

Depreciation

Depreciation on Tangible Fixed Assets has been provided on Straight Line Method at the rates and in the manner prescribed in Schedule XIV to the Companies Act, 1956 on prorata basis from the date of additions and/or disposal.

Intangible Assets, being computer software, are amortised on straight line basis over a period of three years.

Borrowing costs

Interest and other borrowing costs, attributable to the acquisition of or construction of qualifying assets till the date of commercial use of the Assets are capitalised. Borrowing costs incurred for development of long term projects are capitalised as part of their costs. All other borrowing costs are charged to revenue, in the period in which they are incurred.

Impairment

The carrying amounts of assets are reviewed at each balance sheet date to determine if there is any indication of impairment based on external/internal factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net selling price and "Value in use" of the assets. The estimated future cash flows considered for determining the value in use, are discounted to their present value at the weighted average cost of capital.

Investments

Investments that are readily realisable and are intended to be held for not more than one year from the date, on which such investments are made, are classified as current investments. All other investments are classified as long term investments. Current investments are carried at lower of cost or fair value. Long-term investments are carried at cost. However, provision for diminution is made to recognise a decline, other than temporary, in the value of the investments, such reduction being determined and made for each investment individually.

Foreign Currency Transactions

Initial Recognition

Transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transactions.

Subsequent Recognition

As at the reporting date, non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

All monetary assets and liabilities in foreign currency are restated at the end of accounting period. Exchange differences on restatement of all monetary items are recognised in the Statement of Profit and Loss.

Forward Exchange Contracts

The premium or discount arising at the inception of forward exchange contract entered into to hedge an existing asset / liability, is amortised as expense or income over the life of the contract. Exchange difference on such a contract is recognised in the Statement of Profit and Loss in the reporting period in which the exchange rates change. Any profit or loss arising on cancellation or renewal of such a forward exchange contract is recognised as income or as expense for the period.

Forward exchange contracts outstanding as at the year end on account of firm commitment / highly probable forecast transactions are mark-to-market and the losses, if any, are recognised in the Statement of Profit and Loss and gains are ignored in accordance with the announcement of Institute of Chartered Accountants of India on 'Accounting for Derivatives' issued in March 2008.

Inventory

- i) Work-in-progress - Real estate projects (including land inventory): Represents cost incurred in respect of unsold area of the real estate development projects or cost incurred on projects where the revenue is yet to be recognised. Real estate work-in-progress is valued at lower of cost and net realisable value.

Direct expenditure relating to construction activity is inventorised. Indirect expenditure (including borrowing costs) during construction period is inventorised to the extent the expenditure is related to construction or is incidental thereto. Other indirect expenditure (including borrowing costs) incurred during the construction period which is neither related to the construction activity nor is incidental thereto is charged to the profit and loss account.

- ii) Finished goods - Units: Valued at lower of cost and net realisable value.

Retirement & other employee benefits

Short term employee benefits are accounted in the period during which the services have been rendered.

The Company contributes on a defined contribution basis to Employee's Provident Fund towards post employment benefits, all of which are administered by the Regional Provident Fund authorities, and has no further obligation beyond making its contribution, which is expensed in the year to which it pertains.

The liability for the defined benefit plan of Gratuity is determined on the basis of the an acutural valuation by an independant actuary at the year end, which is calculated using projected unit credit method. Acutural gain and losses and the effects of the changes in acutural assumption is recognised in the Statement of Profit and Loss.

Income Taxes

Tax expense comprises both current and deferred taxes. Current Tax is provided on the taxable income using the applicable tax rates and tax laws. Deferred tax assests and liabilities arising on account of timing difference and which are capable of reversal in subsequent periods are recognised using the tax rates and tax laws that have been enacted or substantively enacted. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. If the company has carry forward unabsorbed depreciation and tax losses, deferred Tax assets are recognised only to the extent there is a virtual certainty supported by convincing evidence that sufficient taxable income will be available against which such deferred tax assets can be realised.

Mimimum Alternative Tax credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

Provision for Wealth tax liability is estimated and provided for.

Operating Lease

Operating lease payments are recognised as an expense in the Profit and Loss account on a straight-line basis over the lease term.

Provisions and Contingent Liabilities

The Company recognises a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.
