*"a gush of cool breeze seeping through the lungs and
the soothe view of blue water is the dream of each soul. . . ."*

Such is the serene aroma of the projects at **X'czar** at **Rodium!**

With an inspiration to usher in a green building movement, we proudly state that our under construction project **X'Czar** has achieved pre-certification at Platinum level-Green Homes from IGBC.

The building is based on accepted energy and environmental principles and strikes a balance between known established practices and emerging concepts.

WE FOCUS ON RELATIONSHIP!!

"We have purchased a duplex flat in the project Xczar and are satisfied with the quality and finishing of the work. There are very few builders in Mumbai who maintain the designing and quality part intact as projected in their brochures during purchase of flats... "

– Anuj Choudhary (Flat Owner)

"LDV Consultancy is responsible for building the trade channels for some of Italy's top producers of ceramic tile, bath fittings, and home furniture, and has been operational in India for over a decade. In that time Rodium Properties stands out as one of the very few developers who really understand and appreciate not only the concept of 'added value', but what 'value' actually means and how to identify it in product selection. Rodium seeks the Best. It is a rare pleasure for a trade consultant such as myself to work with clients who really understand and appreciate the high-value commodities on offer. "

– Jason Aupperle Russell, Director, La Dolce Vita Consultancy Ltd. (Vendor)

"We are associated with Rodium for more than 10 years. Its always pleasure to work with clients like Rodium, as they bank on quality with equal concern towards the environment. We wish Rodium best of luck in its future endeavors."

MANAGEMENT DISCUSSION AND ANALYSIS

OVERVIEW

The financial statements have been prepared in compliance with the requirements of the Companies Act, 1956 (to the extent applicable) read alongwith Companies Act, 2013 (to the extent notified), guidelines issued by Securities and Exchange Board of India (SEBI) and the Generally Accepted Accounting Principles (GAAP) in India. The management accepts responsibility for the integrity and objectivity of these financial statements, as well as for various estimates and judgments used therein. The estimates and judgments relating to the financial statements have been made on a prudent and reasonable basis, so that the financial statements reflect in a true and fair manner the form and substance of transactions, and reasonably present the state of affairs of financial statements for the year.

ECONOMIC OUTLOOK AND REAL ESTATE SECTOR OVERVIEW

Global Overview

The International Monetary Fund (IMF) has raised the global economic growth outlook for 2014 to 3.6% and this is expected to accelerate to 3.9% in 2015. Growth in the advanced economies is seen increasing to about 2.3% during 2014, a 1% improvement over 2013. Key drivers for this improvement are a reduction in fiscal tightening and supportive monetary conditions.

Growth is expected to be the strongest in the United States at about 2.8% in 2015. In the European Union, growth is projected to be positive but varied. In the emerging markets and developing economies, growth is projected to gradually pick up from 4.7% in 2013 to about 5% in 2014 and further to 5.3% in 2015. This will be aided by stronger external demand from the advanced economies.

Indian Overview

The Indian economy continued to grow at moderate levels of 4.9% in FY14 (E) as against 4.5% in FY13. As compared to the high growth levels of 8% during earlier years, the sub 5% growth in the last two years was primarily due to high inflationary pressures, depreciation of rupee, policy impasse and slow growth experienced by certain advanced economies. FY14 was a particularly difficult year for the Indian economy with the GDP growth rate falling to its lowest level in a decade. A receding economy, rising inflation combined with heightened interest rates had an adverse impact on the savings ability of the population leading to a decline in demand for the housing and real estate sector.

FY14 has been one of the worst years for the Indian currency, which hit a new low of 69.22 against the USD (a fall of 27.5% from the start of the year). However, by the end of the year, it recovered by 13% and closed the year at 60.13. The main reason for the recovery has been the renewed confidence of FIIs in India's equity market growth and the significant fall in the current account deficit.

With a stable political environment in place, the present period is conducive for a steady pace of implementation of policy reforms. This will encourage private sector investment, creating the platform to utilize the country's advantageous demographic potential and lay the foundations for real GDP growth to move to higher levels. This will lead to enhancement in India's GDP growth rate from the current levels. As per IMF's projections, India would grow at 5.4% in 2014, which would further improve to 6.4% in 2015. However, inflation will continue to be a worrying factor in the economy.

Real Estate Sector In India

Real estate in India is being recognised as an infrastructure service that is driving the economic growth engine of the country. It contributes to around 6.3% to the total GDP. Several factors such as latent demand for homes,

continued economic growth, trend towards nuclear families, young working population, rising disposable incomes, increased urbanization, inherent desire to own a home, etc. continue to act as strong drivers for long term sustainable real estate demand while the main concerns such as inflation, higher interest rates, delays and time-lag in approval for new projects, non-availability of skilled manpower, uncertainty of title continue to remain as challenges being faced by the sector as a whole.

The positive sentiments prevailing on a stable government coming into power has motivated the economy to perform better in recent months, however it may take some more time before the growth in the real estate industry is visible. The previous government had constituted a committee on Streamlining Approval Procedure for the Real Estate Projects (SAPREP) by the Ministry of Housing and Urban Poverty Alleviation (MHUPA) to streamline the process of seeking clearances for real estate projects. The Real Estate (Regulation and Development) Bill, 2013, is a pioneering initiative aimed at delivering a uniform regulatory environment to protect the consumer, help in quick verdicts of disputes and ensure systematic growth of the sector. The Bill has proposed various measures to streamline the approval process and bring in more transparency for the real estate sector as a whole.

The real estate sector in India is largely fragmented and is highly unorganized. However, with increased foreign investment, entry of international real estate players and a number of corporates entering this sector, the industry is getting more organized. The real estate industry's fortunes are closely tied to the economic situation. Moreover, in case of commercial real estate where economic sense prevails, the demand moves closely with economic and business outlook.

The Residential Segment

India's residential housing segment underperformed due to weak demand trends, which slowed down sales, reduced absorption and increased inventory levels. High cost of finance, escalating cost pressures and an opaque regulatory scenario have been the key impediments in the past few years. For home buyers, the sentiment has been considerably soft with persistently high interest rates and real estate prices. However, the housing demand in India is seen exceeding supply over the next decade. Nevertheless, the opportunity needs to be well supported by development policies and regulations aimed at creating additional infrastructure and stimulating housing demand. Going forward, policy-based efforts are expected from the Government to make real estate more transparent and investment friendly.

In Mumbai city, Redevelopment Residential projects also offer a good opportunity to real estate developers with a significant number of buildings requiring to be redeveloped in the next few years. Land is a scarce commodity in Mumbai and redevelopment is a way to ease the pressures of housing in the city.

The Commercial Segment

The commercial real estate segment also stayed relatively weak. Reduction in new office developments, decline in leasing activity, lack of appreciation in capital values, compression in yields and lease rentals across major Indian cities were a few factors that impacted overall performance. Also developers were more inclined towards residential projects over commercial development.

In the long term, commercial real estate is expected to witness robust demand with an increasing number of companies looking to expand operations and setting up offices in suburban locations. These locations are equipped with large office space with modern amenities, parking and safety at relatively low rents. Issuance of new banking licenses will stimulate increased demand from the BFSI sector.

Real Estate Outlook – Mumbai

Over the years, the core of the residential market has been steadily shifting northward of the Mumbai Metropolitan Region (MMR) as people are prepared to move further away from the CBDs to find an apartment that fits their budget. This has prompted a flurry of construction activity in the peripheral suburbs to accommodate this demographic shift as an estimated 63% of the total units under construction are now concentrated in Navi Mumbai and the peripheral central and western suburbs. Also, given the shortage of quality office space, Mumbai's commercial real estate market continues to remain attractive.

OVERVIEW OF THE BUSINESS

The Company's business model is to undertake real estate development projects on property development basis and project management basis. Property Development includes activities starting from conceptualization stage to completion stage. They have the experience and expertise required to undertake large developments.

The year under review was a relatively better year for the real estate sector compared to the previous year, when the industry faced several challenges like sluggish demand, lower industry volumes and delays in regulatory approvals. During the year, the regulatory hurdles with respect to the approval for on-going and new projects in Mumbai were removed to a considerable extent. Realty projects, which were at a standstill due to the regulatory impasse, received approvals for carrying on further development and construction.

The Company's on-going residential project at Juhu Vile Parle, Mumbai also received approval from Municipal Corporation of Greater Mumbai for commencing the work in the month of 31st July, 2013. X'Czar is the Company's premium residential project with a ten storey structure with stilt and podium and will provide the latest state of the art facilities, amenities and accessories including infinity swimming pool on the terrace for its owners. The work on the site is progressing well and is expected to be ready for possession during the third quarter of the current financial year.

The Company plans to commence the development work shortly on its Residential cum Commercial project "X'Point" at Kandivali, Mumbai for which the initial redevelopment approvals from the MCGM was received in 5th March, 2013. NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2014

NOTE 1 : NATURE OF OPERATIONS

Rodium Realty Limited (the "Company" or "RRL"), is primarily engaged in business of real estate development and services.

NOTE 2 : SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Financial Statements are prepared in accordance with the generally accepted accounting principles in India under the historical cost convention, on an accrual basis, in accordance with applicable Accounting Standards and the relevant provisions of the Companies Act, 1956.

All assets and liabilities have been classified as current or non-current as per criteria set out in the Schedule VI to the Companies Act, 1956.

Use of Estimates

The presentation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of financial statements and reported amount of revenues and expenses during the reporting period. Differences between the actual results and estimates are recognised in the period in which the results are known / materialised.

Revenue Recognition

The Company follows the "Percentage Completion Method" of accounting. As per this method, revenue from sale of properties is recognised in the Statement of Profit and Loss in proportion to the actual cost incurred as against the total estimated cost of projects under execution with the Company on transfer of significant risk and rewards to the buyer. If the actual project cost excluding cost of acquisition of land/development rights incurred is less than 20% of the total estimated project cost, no income is recognised in respect of that project in relevant period.

The estimates relating to percentage of completion, costs to completion, area available for sale etc. being technical in nature are reviewed and revised periodically by the management and are considered as change in estimates and accordingly, the effect of such changes in estimates is recognised prospectively in the period in which such changes are determined.

Income from Services is recognised as per the terms of the contract with the customers when the related services are performed or the agreed milestones are achieved and are net of Service Tax wherever applicable.

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable. Dividend income is recognised when the right to receive dividend is established.

Fixed Assets

Tangible Fixed Assets are stated at cost or revalued amounts, as the case may be, less accumulated depreciation and provision for impairment, if any. The cost includes expenditure incurred in the acquisition and construction / installation and other related expenses in bringing the asset to working condition for its intended use. In respect of qualifying assets, related pre-operational expenses including borrowing costs are also capitalised.

Intangible Assets are stated at acquisition cost, net off accumulated amortisation and provision for impairment, if any.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2014 (contd.)

Depreciation

Tangible Fixed Assets :

Depreciation on Tangible Fixed Assets has been provided on Straight Line Method at the rates and in the manner prescribed in Schedule XIV to the Companies Act, 1956 on prorata basis from the date of additions and/or disposal.

Intangible Fixed Assets :

Computer Softwares are amortised on straight line basis over a period of three years.

Borrowing costs

Interest and other borrowing costs, attributable to the acquisition of or construction of qualifying assets till the date of commercial use of the Assets are capitalised. Borrowing costs incurred for development of long term projects are capitalised as part of their costs. All other borrowing costs are charged to revenue, in the period in which they are incurred.

Impairment

The carrying amounts of assets are reviewed at each balance sheet date to determine if there is any indication of impairment based on external/internal factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount which represents the greater of the net selling price and "Value in use" of the assets. The estimated future cash flows considered for determining the value in use, are discounted to their present value at the weighted average cost of capital.

Investments

Investments that are readily realisable and are intended to be held for not more than one year from the date, on which such investments are made, are classified as current investments. All other investments are classified as long term investments. Current investments are carried at lower of cost or fair value. Long-term investments are carried at cost. However, provision for diminution is made to recognise a decline, other than temporary, in the value of the long term investments, such reduction being determined and made for each investment individually.

Foreign Currency Transactions

Initial Recognition

Transactions denominated in foreign currency are recorded at the exchange rate prevailing on the date of transactions.

Subsequent Recognition

As at the reporting date, non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

All monetary assets and liabilities in foreign currency are restated at the end of accounting period. Exchange differences on restatement of all monetary items are recognised in the statement of Profit and Loss account.

Forward Exchange Contracts

The premium or discount arising at the inception of forward exchange contract entered into to hedge an existing asset / liability, is amortised as expense or income over the life of the contract. Exchange difference on such a contract is recognised in the Statement of Profit and Loss in the reporting period in which the exchange rates change. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
